Techstream Lite Mongoose-Plus and MongoosePro Quick Start Instructions

Step 1: Install the Mongoose-Plus or MongoosePro Software

Mongoose-Plus MFC3 and MongoosePro MFC/MFC2 software can be downloaded from TIS (TIS > Diagnostics > Scantool > Techstream Software)

1 After launching the installer from TIS, select “**I accept the terms in the License Agreement**” and press “**Install**”

2 When informed, attach the Mongoose-Plus or MongoosePro MFC2/MFC device. AFTER installation is complete click “**Exit**”

Step 2: Install Techstream Software

1 Login to the techinfo.toyota.com website

2 Select TIS > Diagnostics > Scantool > Techstream Software > Full Install

3 Click on “**Run**” and wait until the download is completed, click “**Run**” again to begin the installation

4 Select a Language

5 Select **Next** on the InstallShield Wizard for Techstream Software

6 Accept the License Agreement, and click **Next**

7 Enter **User Name** and **Company Name**, and click **Next**

8 Click on **Install** to begin the installation of the Techstream Software

9 Click on **Finish** to complete the installation

Step 3: Select the VIM in Techstream

1 Open the Techstream application and select **Setup** from the Main Menu screen

2 Select **VIM Select** from the **Setup** drop down menu

3 Click the drop-down arrow

4 Select the appropriate VIM from the Interface Setup drop down list

- **Mongoose-Plus MFC3**
- **MongoosePro MFC2**
- **MongoosePro MFC**

5 Click **OK**
